

THE IDEA

came from President Lyndon B. Johnson who advocated for rural electrification and youth development. In 1957, when he was still a U.S. Senator, Johnson suggested “**sending youngsters to the nation’s capital** where they can actually see what the flag stands for and represents.”

THIS NOTION EVOLVED

into a nationwide effort to send youth on an organized, fun and educational trip in the 1960s. Now, some 60 years later, electric cooperatives from across the country send **over 1,500 youth to the nation’s capital** every summer.
